Want to build employee morale, enhance teamwork, and communication in a highly engaging environment? WCF's Team Challenge is designed to enhance teamwork and communication, build relationships, improve group problem solving skills, develop strategic planning, and so much more! Teams of 10-15 people compete head-to-head for points in a rotational competition. Teams cycle through three to four activity stations, each focused on the different business skill of your choice. While the Team Challenge provides tangible and specific business benefits, many clients use the Team Challenge simply for the purpose of having a fun and competitive event. Guaranteed to add lasting value to your team!

Mousetrap Race Car ChallengePricing Varies
10-300+ People 1-3 Hours

Looking for a team event that focuses on innovation, group problem solving, and creativity while offering some good old fashioned competition? WCF's Mousetrap Race Car Challenge requires team members to use innovation, creativity, and teamwork to design and build a self-propelled Mousetrap Race Car. Teams must work together to not only design and build the race car, but they must also adapt and change their design to create the car with the best wheel alignment, weight, and overall design to travel the furthest distance. At the end of the event, teams compete one at a time in a competition to see which car travels the furthest. Teams are given two opportunities to "run" their car. Points and/or prizes may also be awarded for most creative design, best car name, and more. In the end, the Mousetrap Race Car Challenge is the perfect combination of innovation, perseverance, and competition.

Examples of categories are pop culture, general knowledge, sports, and custom categories covering company trivia or a specific topic management wants to emphasize at the event. The program is executed in 60 to 90 minutes and can take place during a meal, during a reception, or at the beginning, middle, or end of your meeting.
